# Add New Review on WMC20\_Canterbury Submission

To ensure independent and unbiased reviews, EasyChair does not show reviews of other PC members to a PC member who is assigned this paper but did not enter his review yet. As a consequence of this policy, if you enter a review and then revise it so that the score changes, the system will show both the original and the revised reviews.

For this reason, please ensure that the first review you enter for the paper is a valid review and not a draft and that the scores you give to the paper are the intended scores. If you revise a review and change the scores, we recommend to add a note for PC members explaining the reason for changing the scores.
